GEN. CROZIER ON THE ITALIAN FRONT

HEADQUARTERS ITALIAN ARMY
June 8.—General Crozier of the Ameri-
can ordnance department and member
of the Advisory War Board have spent
a week of observation along the Ital-
ian front and at the various large cen-
ters where artillery and munitions are
produced.

Besides seeing General Diaz and the
Duke of Aosta he visited a number
of the corps and division command-
ers along the mountain and Piave
fronts, going into the trenches and
among the men, discussing the many
questions of equipment and supplies
and specially observing the resources
in guns. His impressions on the gen-
eral condition of affairs were entirely
favorable.

The production of artillery in Italy
has been greatly intensified within re-
cent months and the present equip-
ment of light, field and heavy guns
is probably as good or better now than
it was before the reverse of last fall.
The great industrial plants of Genoa
and Milan have doubled and quad-
rupled their output in guns, trench
mortars, rifles, machine guns, the pro-
duction of mortars increasing seven
fold during the year.

Similar extensive development has
been going on in the production of
mines and armor for naval construc-
tion and in the output of airplanes,
ninety establishments being now equip-
ped to turn out complete airplanes.

LOST 2 HUSBANDS AND WORRIES THERE

LONDON, June 8.—To have lost two
husbands and married a third during
the war has been the experience of
Lady Michael Wardell, one of London's
May Day brides.

She is a daughter of Sir Daniel Coop-
er, an Australian millionaire. She
married first, the late Viscount North-
land, who lost his life in active ser-
vice in 1915, and left a will in which
he expressed the hope that his widow
would marry again. She fulfilled his
hope when she was married to Captain
Geoffrey Mills, who was killed a year
ago.

Her third husband is also a British
officer, holding a commission in the
Royal Hussars.

Pellagra G.S.

Is guaranteed for one
bottle to benefit any
case of Pellagra, Rheu-
matism, Scrofula, Ec-
zema, or any blood,
liver, or kidney disease, or your dollar
returned. Why suffer or pay big bills,
take expensive trips or buy a remedy
with no assurance, if not benefited,
of getting your money refunded? I have
built my trust with a meritorious rem-
edy and fair dealing; a trial is all I ask
you to give G. S. Sold by all druggists,
price \$1 per bottle, or 6 for \$5, or sent
prepaid.

Ugh! Calomel Sickens; Salivates! Please Try Dodson's Liver Tone

I am sincere! My medicine does not upset liver
and bowels so you lose a day's work.

You're bilious! Your liver is slug-
gish! You feel lazy, dizzy and all
knocked out. Your head is dull, your
tongue is coated; breath bad; stomach
sour and bowels constipated. But don't
take salivating calomel. It makes you
sick; you lose a day's work.

Calomel is mercury or quicksilver
which causes necrosis of the bones.
Calomel crashes into your bile like
dynamite, breaking it up. That's
when you feel that awful nausea and
cramping.

If you want to enjoy the nicest, gen-
tlest liver and bowel cleansing you
ever experienced just take a spoonful
of harmless Dodson's Liver Tone to-
night. Your druggist or dealer sells
you a bottle of Dodson's Liver Tone for
a few cents under my personal money-

back guarantee that each spoonful will
clean your sluggish liver better than a
dose of nasty calomel and that it won't
may you sick.

Dodson's Liver Tone is real liver
medicine. You'll know it next morn-
ing because you will wake up feeling
fine, your liver will be working, your
headache and dizziness gone, your
stomach will be sweet and your bowels
regular. You will feel like working;
you'll be cheerful; full of vigor and
ambition.

Dodson's Liver Tone is entirely
vegetable, therefore harmless and can
not salivate. Give it to your children.
Millions of people are using Dodson's
Liver Tone instead of dangerous cal-
omel now. Your druggist will tell you
that the sale of calomel is almost
stopped entirely here.—Adv.

ELEVEN HOSPITAL SHIPS MAINTAINED IN BRITISH NAVY

LONDON, June 8.—There are eleven
hospitals in the British navy, these
being entirely distant from hospital
ships, both while acting as mobile base
there are a number of private
yachts, fitted out by their owners,
which have been taken over by the
Admiralty for its transport of wound-
ed over short distances.

A great deal of medical and surgi-
cal work has been done in hospital
ships, both while acting as mobile base
hospitals to the various fleets and
while carrying wounded. The employ-
ment of hospital ships as mobile base
hospitals enables a fleet to use suit-
able bases without regard to the ques-
tion of disposal of the sick and wound-
ed, the long transport of acute cases
being reduced to a minimum. But the
hospital ships do not go to sea with
its fleet, because it is not practicable
at sea to transfer sick or wounded
men from a fighting ship, owing to
dangers of mine, submarine or rough
weather.

In all ships of the navy the sick
berth is situated in too exposed a
place to be used during action. Con-
sequently in wartime the main dress-
ings, instruments and other apparatus,
except bare necessities required from
day to day, are distributed between
two dressing stations below the water-
line, one forward, the other aft. These
stations have special ventilation, light-
ing and equipment, and are supplied
with hot and cold water. Here the
medical officers are stationed during
action, the wounded being brought
to them by stretcher parties during
pauses in the fighting.

In the battle of Jutland a dressing
station was completely wrecked and
the entire berth staff and the chaplain
were killed. The medical officer in
charge was knocked down and in-
jured, but he pulled himself together,
"cleared" the station to the other side
of the ship, and worked without sleep-
ing for forty-eight hours.

After treatment, the wounded are
passed on to disposal stations fitted
with special accommodation, slings
for one and stretchers. Large modern
fighting craft all possess a fully
equipped operating room, which can
be used, if still available, after an ac-
tion. During this war gas respirators
and masks have been provided, and
after the battle of Jutland, when the
need arose for the prevention and
treatment of burns, face-masks and
gloves were issued for the use of the
crews. There was also introduced an
improved method of treating burns
with paraffin wax.

The total accommodation provided
by the country's naval hospitals is
about 10,000 beds. The total force
of naval medical officers is 1378.
Eighty-three have been killed or
drowned since the war began.

During the war the health of the
navy has been remarkably good, in
fact, probably better than in pre-war
years.

FRIENDS OF AMOS E. LEWIS ELATED

MARIANNA, FLA., June 8. (Special).—
Friends of Amos E. Lewis are elated
over his nomination for the third time
as Jackson county's representative in
the state legislature. He is the only
lawyer from this county and the only
candidate ever nominated for the posi-
tion for the third time. In the June 4
primary he defeated his opponent by
1071 majority.

Mr. Lewis was born and raised in
Jackson county and was private secre-
tary to Stephen R. Mallory. He has
been in the active practice of law for
many years and has many friends in
every county of the state.

He has announced his candidacy for
speakership of the next house of
representatives and it is believed that
he will have the support of the major-
ity of the members.

HAS RETURNED FROM
AN EXTENDED VISIT

The many friends of W. Bernard An-
derson, will be pleased to learn that he
is able to return to his duties again af-
ter a long illness from typhoid fever.

GERMAN YOUTH DO NOT RUSH TO COLORS

WASHINGTON, June 8.—German
youth no longer rush to the colors
with the enthusiasm that marked the
mobilization of 1914, according to an
article in the Berlin Vossische Zeitung,
telling of the wartime impairment of
the German educational system.

"The spirit of voluntary service
which at the beginning of the war
revealed itself in its fairest aspect
has now disappeared," says the article.
Everywhere we hear lamentations over
the increasing distaste shown for mili-
tary service.

Scholastic standards in the public
school have fallen so low, it is said,
that "promotions no longer represent
any definite standard of accomplish-
ment." Scholastic efficiency has suf-
fered considerably because pupils sub-
sisting on war diets for long periods
are found to be generally undernour-
ished.

Juvenile delinquency has spread to
an alarming extent, and it is an-
nounced that "already the number of
violent crimes committed by youths
in the city of Berlin is more than
three times the number reported in
1914."

"Thus," concludes the article, "dark
shadows are falling over the brilliant
picture of 1914. Every disciplinary in-
fluence, every effort of the still fun-
damentally sound German nation must
be exerted to oppose this tendency,
and to lead the children back to the
path of rectitude."

WITH U. S. AVIATION STUDENTS ABROAD

AMERICAN SEAPLANE TRAIN-
ING CAMP, Italy, June 8.—"The
watchwords of this camp are efficiency,
friendship, victory," said the Ameri-
can commander as he stood on the
beach of the lake directing the after-
noon's flying. "The efficiency is for
our boys, the friendship for our
friends the Italians, and the victory
is the destruction of the enemy," he
explained.

If anything, the work in a training
camp here is apt to be harder than
in a similar camp at home. In addi-
tion to the usual routine of flying and
studying. The students must learn
French or Italian, or both, to know the
names of machine parts, technical
terms, and to know how to find their
way about.

The aviators have found that they
must know a good many phrases and
sentences if they would understand
the Italian mechanics, motor drivers,
and aviators. So the Americans al-
ready have begun studying Italian as
a side line to their many other studies.
Most of them know the meaning of a
long list of words employed for tak-
ing off, banking, turning, gliding, di-
vings, snaking and landing.

A good deal of Italian has been
picked up by the aviators right in the
village where the people are very
friendly and do not laugh at the weird
expressions used by the Americans,
whom they have adopted as their very
own. The young aviators, whose ears
are keener have the advantage of learn-
ing the language and they find it comes
in handy at the mess tables. The
mess of the entire camp, is located
in a fine old Middle-age place. The
entire kitchen and first floor has been
turned over to them, and there they
eat surrounded by frescoed walls and
ceilings typical of an Italy of other
days. The mess is overseen by a
chef formerly with the Duke d'Abruzzi
and the Americans are said to be
among the best fed soldiers in Italy—
all for \$3 cents a day.

The aviators repay the chef, Conso-
tino, by teaching him American slang.

PORTO RICO DRAFT
TROOPS ALL READY.

SAN JUAN, Porto Rico, June 8.—
Uniforms of 13,000 recruits, a full sup-
ply of ordnance stores, all the ten-
age that will be needed at Camp Las
Casas and the complete equipment for
the motor truck company including 30
motor trucks and 25 motorcycles are
here and stored awaiting the calling of
Porto Rico's draft troops.

J. A. SOWELL HELD BY GOVERNMENT

J. A. Sowell, said to be from Missis-
sippi, and who has been in the city jail
for the past three or four days, charged
with having made public utterances un-
favorable to the Allies in the war, will
remain in confinement until new facts
that are developping, can be investi-
gated by the United States legal au-
thorities here.

Sowell, it is stated by government offi-
cials is a dangerous man. One of the
allegations against him is that in a bar-
ber shop in Pensacola, he made remarks
about Great Britain but refrained from
saying anything about the United
States. It is also claimed that he be-
longed to an organization in this country
which, upon various occasions, has been
doing violence to property.
